

2023-2024 School Registration

How do I register?

Register online at sd38.bc.ca/registration. After registering, you can expect a phone call to verify your information. Central Registration will process applications from July to August.

Will I get into my catchment school?

Students normally attend their catchment school based on their parent or legal guardian's residence. Students will be placed at a nearby school if their catchment school is full.
