Join the ParticipACTION Move for your Mood Challenge January 16–31!

Calling all families, friends and fellow community members! It's time to get moving to help reduce stress and promote happier feelings. Physical activity literally boosts your mood! Any movement like a walk, bike ride, jumping jacks or a swim will provide some mood-boosting effects.

Join the Move for your Mood challenge, when getting active not only makes you feel better, you might just win prizes too!

It's easy to join, simply download the free ParticipACTION app through the Apple App Store or Google Play Store. Sign up with your Richmond postal code and log your activity January 16–31.

Family Literacy Week

Make it count!
Play * Sort * Measure

Resources to support Numeracy at Home!

- [Where does math live in our Community this winter?](#)
- [Are you looking for ways to build numeracy during everyday activities with your children??](#)
- [Are your older kids working on reading infographics? Discuss these from Stats Can!](#)

Supporting Literacy at Home Younger Children

- Read books and nursery rhymes aloud together in any language
- Talk daily about home and community life
- Sing, draw and tell stories
- Notice letters and words in the spaces

Older Children

- Play word games and point out new words
- Ask questions before, during or after reading
- Encourage and support different types of reading material
- Discuss events in the community and consider different opinions

Why read with children at home?

- Helps in language development
- Aids in brain development
- Strengthens family relationships
- Improves imagination and creativity
- Leads to academic success
- Aids in understanding a world outside our own!

The Public Library is an excellent place for literacy and numeracy adventures!

"Literacy and numeracy are fundamental to all learning. While they are commonly associated with language learning and mathematics, literacy and numeracy are applied in all areas of learning."

Primary School
DIARY

Literacy is the ability to understand, critically analyze, and create a variety of forms of communication, including oral, written, visual, digital, and multimedia, in order to accomplish one's goals.

Numeracy is the ability to understand and apply mathematical concepts, processes, and skills to solve problems in a variety of contexts.
